General Information

AIMS and SCOPE

"Advances in Urological Diagnosis and Imaging" (AUDI) has the purpose of promoting, sharing and favorite technical-scientific research on echography and imaging diagnosis, in diagnostic and terapeutical field of Urology, Andrology and Nefrology. AUDI publishes original articles, reviews, case reports, position papers, guidelines, editorials, abstracts and meeting proceedings.

AUDI is Open Access at www.issuu.com

Why Open Access? Because it shares science at your finger tips with no payment. It is a new approach to medical literature, offering accessible information to all readers, becoming a fundamental tool, improving innovation, efficiency and interaction among scientists.
